

KATZ INDUSTRIAL SOLUTIONS

Our wood pulp-based material is certainly not a new product. It's just that for the past 100 years it has mostly been used to make beer mats! The fact is, however, that KATZ wood pulp board represents a genuine alternative to raw materials typically used in industry.

Available in both reel and sheet formats, our German-made KATZ products are a sustainable, high-quality choice that feature an impressive array of unique properties. Designed to meet the most demanding industrial standards, they might well offer exactly the solution you have been looking for!

Format options for all KATZ industrial solutions

Dicke Thickness	Toleranz Tolerance	Flächenmasse Grammage	Volumen Volume
0.8 – 2.6 mm	± 6%	333 – 981 g/m ²	2.40 – 2.70 cm ³ /g

Reels: Available in thicknesses from 0.8 mm - 1.8 mm

Rollenbreite Width of reels	20 – 207 cm	Toleranz Tolerance ± 2 mm
Rollendurchmesser Diameter of reels	120 – 180 cm	Toleranz Tolerance ± 3 cm
Hülse Core: Innendurchmesser Inner diameter	30 cm*	-
Hülse Core: Außendurchmesser Outer diameter	33 cm - 35 cm	-

* 15.2 cm (6 Zoll) core inner diameter on request.

Sheets: Available in thicknesses from 0.8 – 2.6 mm

Bogenbreite Width of sheets	45 – 252 cm	Toleranz Tolerance ± 2%
Bogenlänge Length of sheets	60 – 160 cm	Toleranz Tolerance ± 3%
Palettenhöhe Height of paletts	0.5 - 2.4 m	-

The minimum order quantity is approx. 10 tons depending on the type and format.
Additional thicknesses and formats available on request.
